As a back burner item...should we be charging more to Enviro Safe for the high ethane propane? ie...is it just as easy for us to acquire and deliver? Mike B might know the answers.

Please let us know before Feb. 1

No, we don't need to delete either of them.

Spec # 010518-74 is a Customer spec. This is for A-108 with high ethane. Spec #000510-93 is an Aeropres A-108 spec.

Why two specs for the same product? We already have a spec for A-108. Do I need to delete 010518-74? Please scroll down.

Thanks!

Subject: Order SpecId Missing In SalesLogix (01/07/2010 05:00:02)

The list in the attached PDF file, contains actual orders from the Corporate Access Tracking System (CATS) that do not have pricing information listed in Saleslogix. Please contact your sales manager for further assistance.

Please note that while only one CATS Order is provided with each SpecID, that it is very possible that there are several more. The CATS Order information is provided only as an example of the problem.

Subject: Enviro-safe Hi psi A108

Randy said verbally if we only have 124 or so psi on our hi psi propane, he would take it (Monday delivery---they are out of gas).

Mike or Cathy will have to confirm this low side of the psi spec with Randy, do a dba form for Jennifer to be able to tweak the specs and such.

Also, the Isobutane on Monee gas has been going up this month to 3+ and Enviro-safe's 3% max may not be able to be met...check on this too please.
